#### BEST WEEK OF THE YEAR

LOCAL TRADE IN ALL LINES BEYOND ALL EXPECTATIONS.

Grocers and Dry Goods Dealers Especially Busy-Grain Market Furnishes the Only Bad Spot.

Trade in the week ended on Aug. 24 was a

gratifying surprise, and in volume probably the largest of any week of the present amount of fruits and vegetables offered demonstrated that there had been unnecessary alarm as to the shortage of crops. This is especially true of fruits, as peaches, pears and plums sold as low as in any former year, and apples of excellent quality are selling at the average price in August of years past. In the vegetable line Irish potatoes are still unusually high, but shipments from the Northwest in the near future will bring down that market. Sweet potatoes, cabbage and onlons are selling as low as usual in August, and tomatoes, which a few days ago were selling at higher prices than in any former year, are now selling as low as ever at this seaand some as low as 25 cents a bushel. Weaker conditions of wheat have caused an unsteady feeling in the flour market. Sugars carry an easy tone, with demand much better the last week. Coffees are in past. The abundance of fresh tomatoes has weakened the canned goods market. While there will be higher prices undoubtedly than there would have been, it is likely to keep quotations on the pack of that veg-etable at least at a lower level, and the same remark will apply to peaches. With each day the poultry market shows an improvement as to demand and as to condition of the receipts, chickens being larger ng well at steady prices. The dry goods weeks past. The seed market is more ac-

nouses had a good week. Business and prices rule much the same as for some tive, with prices firm. The local grain market was a disappointing one as to receipts, the break in prices on wheat and corn not apparently increasing shipments until late in the week. On all markets it is thought that prices reached the climax early in August, and that the declines which have now set in are to be followed by further shrinkage in values. The week closed with track bids | ruling as follows, as reported by the secretary of the Board of Trade:

Just What Is Meant by the Prohibi-

The World's Work. postmaster general, in response to an inquiry; The clubbing of magazines in reasonable co Neither is a combination with a book under like circumstances forbidden. The intent of the law is plain. It is that the periodical shall be of character which will command subscribers on its own account, and not because of outside induce-ments it may offer. This does not preclude the use of ads, which may operate as a di ter of the publication itself. The law inte to give the benefit of the pound rate to publi tions which the people sought for their sake, but it did not intend to give that be periodical for little or nothing in order to a big list to appeal to advertisers. In words, the law is designed for the benefit of reader and not of the publisher. As to the quesdeal with each case as it presents itself. What to be considered. The department will seek to apply the rules of common sense and fairness without assuming to dictate how any publisher
